Description

HISTORY

SAGALÉS resulted from the fusion of several passenger transport companies.

The first traces of economic activity date back to 1641 when farmers were transported to different markets. After industrialization, 50 years later, and still with the first generation of Sagalés at the helm, we dedicated ourselves as artisans to the business of wool farming.

In its over 375 years of history, all generations have been at the forefront of the transport sector providing services to organizations and events, and covering the most important transport needs of Catalonia.

MISSION

We aim to make our users' life easier by providing an innovative, sustainable, customer-focused transport solution of a professional quality they can trust.

CODE OF ETHICS AND INTEGRITY

The Code of Ethics and Integrity aims to put into writing the rules of conduct that the company has adhered to since it began in order to make responsible and ethical decisions. This Code of Ethics, known and shared by all the people who form Sagalés, establishes the pillars of internal and external behavior and relationship.
